**Comentario [s2]:** The advent of democracy

With this affirmation we can see the past 30 years the educational model in Spain has changed too many times. The LOGSE is the last model and it displayed itself quite frustrating.

**Comentario [s3]:** That over the

**Comentario [s4]:** Most recent

**Comentario [s5]:** has proved to be

Our students have no motivation because to reach the secondary degree they spend too much time, and this degree is useless for the actual working world, unless they keep studying for longer.

**Comentario [s6]:** they take too long to finish their secondary education

**Comentario [s7]:** qualification

Of course politicians and government are not the only ones responsible for such bad results; in the last 30 years our society has developed in a more and more demanding society. Where before the family had more time, at least one of the adults, to be with their children. Nowadays our society demands the attention of both of the parents for it self, forcing both parents to work out and stealing their time to teach the basement of education.

Probably the actual panorama would have been different if former leaders would have joined the ministries of education, science, and culture and provided independent assessors.

**Comentario [s15]:** current situation

**Comentario [s16]:** could

**Comentario [s17]:** had worked in

Of course another fact is the disorganization in between different autonomies. Central government should have coordinated all education in Spain; respecting different languages, cultures and traditions.

**Comentario [s18]:** not needed

**Comentario [s19]:** regional governments

Looking at the familiar aspects we should think that the development of our society has been demanding a new distribution of the families schedule. Government should be providing better social protection for families with children in studying age.

**Comentario [s20]:** family issues

However to find the right solution should be an arrangement of all society and right at this minute... we are looking to our wallets.

**Comentario [s24]:** the government

**Comentario [s25]:** of school

**Comentario [s26]:** the responsibility

**Comentario [s27]:** society as a whole

**Comentario [s28]:** watching the pennies.

Good effort. However, too many of your sentences have a structure/word-order which very closely resembles Spanish. You will have to try to change this if you are to do better in the exam. Reading

more in English should give you an idea of what makes good style.SLP2
