

Ejercicio 1 Descripción y Narración.

Task 1

Dear colleague,

During the next week you are going to **recibe** your official communication with your destination in Kampala. In this e-mail I want to give you an idea about the camp and the facilities you will find **at** your arrival.

As you can imagine Uganda doesn't have a **lot** facilities close to the camp, local shops and the hospital are in town which is about 25 kilometres **out of** here. The quarters where you will spend your spare time **have** TV, Internet, and the main advantage is that the working area is not far from **accommodation**.

Best regards,

Lt. Martinez

During my first day in Uganda I met **captain** Smith who told me he was working with you in Belgium. He is a funny and edgy guy **as you well known** but he loves Spanish tortilla, so today I am going to cook one.

I hope **see** you soon again in Madrid my friend.

Task 3

Hi,

My live continue in Kampala without important news, except for the Spanish **ambassor** visit. He spent some hours with us last week and during the **welcome** event someone forgot to close the main gate and a small lion entered **inside** the camp. As you can imagine the Spanish **ambassor** **shocked** for that and he started to run by the camp. For us was impossible **overtook** him, until he got the second floor of the command building. A few minutes after **Somalian** soldiers **catched** the lion and closed the main gate in order to prevent **that** another animal entered inside the camp.

After that **the welcome event** continued without more problems.

Best regards,

Lt. Martinez.

Comentario [g26]: Comma required.
