

TAREA 2-08-AL11: ENSAYO

LOOKING FOR A BETTER EDUCATION.

The access to the best possible education of his citizens has to be one of the first priorities of a government. Furthermore, the future of the country depends on it.

Comentario [s1]: For its

I believe that the level of education has dramatically gone down in Spain in the last 30 years.

Comentario [s2]: Gone down (or fallen) dramatically

Firstly, the PISA reports in the last few years have informed that the Spanish student's results continue among the worst results in the world. In addition, the school failure has been increasing year by year, so, unfortunately, a big number of students have left the class rooms without getting a secondary titillation last year.

The causes of the descend of the educational level could be, among others, the lack of attention over the children by their parents with the excuse that they do not have enough time and passing educational responsibilities to other people, the continuing loss of authority of the teachers in class or the lack of other alternatives to the students who does not want to continue their studies in the last years of the compulsory educational system.

Comentario [s20]: not necessary

It is necessary that the educational institutions, family associations and teachers work hard together, looking for a solution and reach an agreement in order to improve this situation as soon as possible. Our boys and girls cannot wait much more!

Good attempt. You have managed to express your ideas quite well and a native-reader would not have any trouble understanding your essay. You need to look a little more at vocabulary, however, and also try to ensure that you are using the correct preposition.SLP 2+
