

INFORME

TO: Headmaster "Bundessprachenamt Schule" in Hürth.

FROM: Capitán López

SUBJECT: Recommendations, improvements, solutions for the German language school.

DATE: 08/10/2011

The aim of this report is to remark the shortcomings during the last course and to make recommendations for ways of improving course conditions in order to enlarge the students' capabilities in the following year.

Comentario [s1]: Comment on

Comentario [s2]: of

Comentario [s3]: improve

It is a fact that, teachers' ways should be checked to encourage students to learn. Indeed, teachers hardly ever pay attention to students' attitudes, capabilities, efforts etc..., they are only settled in the result of the test from each student. It would be great having all books it will be used in the course before beginning it, for instance a standard English grammar and vocabulary, therefore students would know how to make the most of their time.

Comentario [s4]: teaching methods should be revised

Comentario [s5]: interested

Comentario [s6]: to have

Comentario [s7]: the books that are to be used on the course before it actually begins

Comentario [s8]: with

It would be advisable to improve every appearance of school, for example with online connections in every classroom so that students could share their work and communicate using software tools and to stay in close touch with teachers.

Comentario [s9]: facilities in the

Comentario [s10]: infinitive is not necessary here

I strongly also recommend reducing the outnumbered groups, it would be perfect for learning a foreign language like English, French etc..., and for relieving tension teachers daily.

Comentario [s11]: also strongly

Comentario [s12]: size of

Comentario [s13]: reducing the pressure on the teachers

In conclusion on the basis of the points mentioned above, it would be very positive to carry out these measures, I well-informed that's easier said than done, but we must try to implement these systems concerning reducing outnumbered groups and online connections "Internet", thus getting better results.

Comentario [s14]: and on

Comentario [s15]: am aware

Comentario [s16]: :reducing class sizes

Comentario [s17]: Providing internet connections,
