Dear Sir,

During the last month I have received several complains from the users of the dining hall about the quality of the service provides by your company under the contract number EU 005/2011, and signed in Kampala the 3<sup>rd</sup> of January 2011.

After some phone calls the only answer that we have received is that an important number of kitchen personnel have leaved the company in the last weeks. As you perfectly know and as stipulated in clause 5 of the contract mentioned in the first paragraph, the minimal personnel that will give the service will be five cooks, ten cook assistants and twenty waiters. Yesterday morning I did an inspection of the service and the problem of staff shortage was more intense, and as a consequence of this reduction the kitchen was very dirty and the hygienic conditions in the treatment of the foodstuffs very inadequate.

The European Union pays generously for this contract, double than usual for contract personnel and your company had two possibilities in order to solve the staff problem, contract more persons or pay better at your workers.

The European Contingent in Kampala is the military unit in charge of the security and defense of this area, and I have the responsibility of providing the food supply to this unit, for this reason I am in the obligation of cancel the contract EU 005/2011 in application of the 7<sup>th</sup> clause of the signed contract and you must leave the installations on 31th October 2011.

Yours faithfully,

David Martínez

Como puede leer en las notas, necesita mejorar el uso de las preposiciones. También comete algunos errores básicos con las formaciones verbales (participios irregulares).

El estilo es bastante formal aunque, en ocasiones, poco elaborado.

La estructura y organización de los párrafos es correcta.
